Table of Contents

User Experience & Technical Enhancements

User Type (End-User, Administrator, Technical)	Area	Problem/Error Solution implemented/amended behavior	Reference #
End-User	Work Next- erroneously inactive requests	Some Requests that were incorrectly opening in read-only status as if the Site was inactive, will now open correctly (after clearing the cache). These requests will no longer have a purple highlight over the Site name on the Request screen since the Site is not inactive. Previously some Requests (ex: Awaiting Cert) could not be edited/certified due to a defect in getting the Site's active status.	69253
