Pre-Release- Auto Fax Delivery method

A new Delivery Method named Auto Fax has been added to the Request screen (right side) for the COC request type (not for batch STAT request use). The radio button is in a *disabled mode* temporarily until it can be used in the near future. There will be more information about the delivery method in Release Notes and a Job Aid when officially rolled out this year.

The image below shows the new radio button in the Delivery Method section. The radio button is gray and cannot be clicked. There are no other changes to the delivery methods so continue to use them as you do today.

User Experience & Technical Enhancements

User Type (End-User, Admin, Tech)	Area	Problem/Error Solution/New Behavior	Jira Unity Ref #
End-User ▾	Logging Automation (STORK)	When a request cannot be fully logged because some of the data failed for valid reasons, the History screen now shows the Stork service account events indicating the request did go through Stork and fields were populated.	70747
End-User ▾	PAYD/ChartFinder	When a request is corresponded with Patient not Found, or No Dates of Treatment as Requested, the Reason codes are now sent to ChartFinder so these don't have to be manually reviewed.	63982
Logging au… ▾	Logging Automation (STORK)	When Stork sees a Fax number in the Request Letter for a CoC request type, the fax number and Delivery method will be populated as Onsite-Fax.	72435
Digital Fulfi… ▾	PAYD/IDSB	Follow-up change for ChartID field added to PAYD request screen with Rel 9.12. If chartId is passed other than numbers as optional - it will not persist in the erequest_details.chart_id column (Released 9.12.1 on 05/28/24)	72412 72214
Tech ▾	OCR- ARCH/Chart Finder	OCR is being changed from OpenText vendor to inhouse Textract.	71993
Tech ▾	Delivery Method- AutoFax	A new delivery method is being added to be used in the future by specific Sites so COC requests can be delivered via an automated fax process which reduces the manual burden of scanning the MR to fax. This is a multi-phase release feature and is only being used at pilot sites until further notice.	65127
