

# HealthSource 10.12 Release Notes

Last updated by  **Jim Bartolotta** • 10 hours ago

## Release Information

**Release – Thursday December 19th at 5pm EDT until 6pm EDT**

## Release Summary

We are finalizing changes to the reproductive health attestation workflow in HealthSource, including a new UI in Platform Admin for Finance users to upload files, enabling STORK to identify unique IDs and streamline the billing process. Additionally, we optimized backend services for better performance and removed the Date of Service check for Digital Fulfillment, ensuring smoother traffic flow to Digital Auth Review.

## User Experience & Technical Enhancements

User Type (End-User, Admin, Tech, etc)	Area	Problem/Error Solution/New Behavior	Jira Ref #
