# Provisioning Table of Contents

User Experience & Technical Enhancements.....4

# User Experience & Technical Enhancements

User Type (End-User, Admin, Tech)	Area	Problem/Error Solution/New Behavior	Jira Unity Ref #
End-User ▾	Export Request Search	<p>For Users with the role, External Management, they no longer had the Export option “Plus comments”. And, the export file did not include &gt;1k rows, when applicable.</p> <p>The Export dropdown now contains the option to export plus comments. And over 1k rows are on the export file.</p>	72117
End-User ▾	PAYD/Chart Finder	<p>When the request is missing the patient’s ChartID that the Requester needs, the request bypasses the normal flow and goes directly to Back Office which causes issues.</p> <p>Now the ChardID field is on the Request screen for all PAYD requests. The field is mandatory when the Requester is set up in the sm_idx_formats table. If not set up, the field is optional.</p>	72214
End-User ▾	COC	<p>The requests that were logged by Central Intake and were not qualified for Digital Fulfillment due to bonafide errors were not being routed out of Digital Fulfillment to Ready to Fulfill for manual fulfillment.</p> <p>Now, these requests are routed to Ready to Fulfill for manual fulfillment/processing by using the service account to route</p>	72358
Admin ▾	Global - User Config/ Provisioning	<p>When a user is disabled or their site access is removed, the associated vendor information also becomes unavailable. This results in disruptions during the report creation process.</p>	72249
