Provisioning Table of Contents

- Provisioning & Datavant email migration Tips..... 4
- History event for Warning- Same address/different name..... 4
- User Experience & Technical Enhancements.....5

Provisioning & Datavant email migration Tips

Please go to the Datavant Vault, [HealthSource Provisioning: Datavant email migration](#) to see more details on the process for provisioning Users for HealthSource. As a reminder, the general basics are below:

- New Users will be provisioned with their @datavant email address
- Current/Rehire Users (aka legacy Ciox Health users) will be provisioned with their @cioxhealth email address

History event for Warning- Same address/different name

A History event has been added to represent when the Same Address/Different Name Warning pop-up message has been displayed for the User. The History event is generated for each of the tasks performed below:

- Logging Requester search lookup selection
- Fulfillment Requester search lookup selection

The event shows the number (2 in the screen below) of requesters that have the same address but a different name for the requester criteria searched.

Request History Record Type Codes ↕ ⓧ

eRequest ID: Site: 13270
Log ID: Request Status: Ready to Fulfill

Date ↕	User Name	Event Description
02/07/2024 10:31 AM	<input type="text"/>	Fulfillment returned
02/07/2024 09:43 AM	<input type="text"/>	Warning message: Same address/different names for 2 requester(s).
